REMARKS

Return to CIA Library

25X1X

1. 13 October 1949

It was observed that one U-2 biplane landed at the HALLE-NITTEBEN (M 52/D 82) airfield every Thursday. The landing field had a firm grass cover.

2. 14 October 1949

Furniture was being removed from flats on Heideweg near the former air signal school and hauled by Soviet Army trucks. At the same time Soviet Air Force dependents moved into the evacuated flats.

3. 15 October 1949

Soviet Air Force officers have been observed for the first time in HALLE. The repeated appearance of air force motor vehicles in the field kaserne was also conspicuous and might indicate that it was possibly intended to reoccupy the airfield.

4. Air force trucks observed in HALLE:12 October 1949

CONFIDENTIAL Comment:

According to a previous report, it was assumed that the field kasernes were newly occupied by an air force unit between 20 and 30 September 1949. This unit has not been identified, not even from the reported motor vehicle numbers. According to previous observations, these motor vehicle numbers are assigned to units stationed in JUTTERBOG, WITTENBERG and GROSENHAIN. As the arrival of an air unit has not been observed in HALLE-WITTEBERG, it is assumed that the new air force units are either an advance detail of an air unit or an air force supply unit.
